

Aerial flown March 10, 2005

Created 01-17-08

**Traffic Patterns**

- Typical small fixed wing & helicopter traffic pattern \*
- Silver State noise abatement traffic pattern
- Airport Runways

Helicopter patterns are 500 feet above ground level (AGL)  
 Small to medium sized fixed wing patterns are 1000 feet above ground level (AGL)

\* NOTE:  
 Traffic patterns expand relative to size & speed of aircraft.  
 Pattern shown is small end of scale.
